

Whooping cough and pregnancy

**Babies who are too young to get vaccinated are at the greatest risk
of getting whooping cough**

**Whooping cough is a serious infection that can be particularly
dangerous for babies**

Don't take the risk!

Help protect your baby by getting vaccinated

**Contact the GP reception or midwife to get the vaccination
www.redwoodpracticedartford.co.uk 01322 223600**
